Dear Sir,

Re: Declaration animal derivatives free in BOPP films

This letter will answer your request concerning BOPP films include BOPP plain films. Polypropylene (PP) resins are coming from the petroleum base. The animal derivatives are not intentionally used in this product. We believed that our product without the Bovine Spongiform Encephalopathy (BSE) and Transmissible spongiform encephalopathies (TSEs). However, we do not test our product for the substances. Consequently, no warranty can be assumed or given for any information provided herewith.

We hope this information is sufficient. Because of possible changes in the law and in the regulations, we recommend that customers continuing to use our products verify status very three years from this date. If we can be further assistances, please do not hesitate to contact us.

Dear Sir,

Re: Declaration animal derivatives free in BOPA films

This letter will answer your request concerning BOPA films (N and NS grades). These products are produced under the GMP system and animal derivatives are not intentionally used in these products. We believed that our product without the Bovine Spongiform Encephalopathy (BSE) and Transmissible spongiform encephalopathies (TSEs). However, we do not test our product for the substances. Consequently, no warranty can be assumed or given for any information provided herewith.

We hope this information is sufficient. Because of possible changes in the law and in the regulations, we recommend that customers continuing to use our products verify status very three years from this date. If we can be further assistances, please do not hesitate to contact us.
