COMPANY

PT. KANEFUSA INDONESIA: The one and only comprehensive manufacturer of industrial cutting tools in Indonesia. With experience more than 30 years in Indonesia, our products quality are recognized as the best among all competitors.

Strong Points :

- Our tools are manufactured with Japan edge-cutting technology.
- Our domestic factory and wide-spread sales agent ensure steady supply chain.
- Our technical support to all customers as after sales service.

Each of us, as a professional, creates new values and contributes to the manufacturing industries of the world through a creative perspective beyond our tool edge.
