Dear Sir/Madam,

**PCG: Halal Status**

In response to your query on Halal Status of PETRONAS Chemicals Group Berhad (PCG) product range, kindly be informed that all PCG ETILINAS and ETILINAS PETLIN LDPE grades (i.e. HD5201AA, HD5301AA, HD5403AA, LL0209AA, LL0209SA, LL3840UA, C150Y, C170X, N103X, N109X, N125Y, M022X, M050X) comply with Halal regulation as stated by Malaysian Authorities (in relation to the manufacturing process, storage, distribution and transportation).

The product is manufactured through chemical synthesis of petroleum based raw materials and to the best of our knowledge, none of our manufacturing process utilizes raw material originating from animal and/or Non-Halal based material (i.e. pork, alcoholic beverages) nor do we produce/manufacture Non-Halal products (i.e. alcoholic beverages) and hence comply with HALAL requirements.

At our production plant in Kerteh, Terengganu, we are still using the same raw materials and process to produce our product. There are no changes made on our raw material or/and our production process which could interrupt the Halal integrity of our product.

For more information on the components of our products and their concentration, please refer to the related Product Data Sheet (PDS).

Kindly take note that this declaration is valid for ONE year from the date of issuance.

Please contact our sales representative for further information on our product.

Yours sincerely;

For PETRONAS Chemicals Group Berhad

*Shri Gagan Siva Subramaniam*
