

Technical Data Sheet

Yellow Masterbatch

#3200

► General

This color masterbatch is specifically designed for use in PE and PP products.

► Composition

Article	Remark
Carrier Resin	Polypropylene
Yellow Pigment	
White Pigment	
Others	
Total	100

► Physical Properties

Article	Physical Property	Remark
Melting Point	130–150°C	
Melting Flow Rate	18.6g/10min	2.16kg @230°C
Specific Gravity	1.2	
Moisture Content	below 0.3%	
Appearance	Yellow Pellet	

► How to Use

Recommended Dosage : 3% (wt)

► Safety

Made with non-toxic pigments suitable for food contact.

► Lifetime & Storage

Lifetime of this masterbatch is 12 months when stored in upopened original containers under max temperature of 40°C. Please avoid a direct sunlight.

► Packing

25kg bag
