

CQD16-20RVF2 **Electric Reach Truck 1.6/2.0T**

LI-ION
TECHNOLOGY

Features :

- Fast Charging 2,5 - 3 Hours
- Optimal visibility
- High stability
- Enjoyable lifting operation
- Easy and precise operation

FEATURE

■ Optimal visibility

Along with the offset layout of the oil tubes, stacking visibility and operation flexibility of CQD16/20RV(F)2 are greatly improved.

■ Enjoyable lifting operations

CQD16RV(F)2 and 20RV(F)2 offer powerful performance and quiet operation through the upgraded hydraulic pump and reduces operation noise by 10 dB.

■ Easy and precise operations

CQD16RV(F)2 and 20RV(F)2 are equipped with mechanic height indicators, that tells operators the correct height of the fork at various rack levels for precise operation to improve the stacking efficiency.

■ High stability

The low center of gravity and the newly I-beam mast design enhance the truck stability. The maximum lifting height of CQD16RV(F)2 is 9500 mm while the one of CQD20RV(F)2 is 12000 mm.

FEATURE

■ Easy Steering

CQD16/20RV(F)2 come with full AC motors and electric power steering system that consumes less power compared to hydraulic power steering while keeps operation habits of trucks with mechanical steering through the additional damping force. So CQD16/20RV(F)2 give more working hours than ones with hydraulic power steering.

■ Full-color Display

CQD16/20RV(F)2 are designed with a color display to help operators easily monitor battery charge level, driving speed, and check error codes.

■ 6000K Led Light

CQD16/20RV(F)2 are equipped with 6000K led lights to cope with the dark environment for optimal visibility.
