## TO WHOM IT MAY CONCERN

**Product:** PET Film & MET PET Film

This is to certify that the PETLAR grade polyester (BOPET) films manufactured and supplied by SRF Industries (Thailand) Limited, comply with commission regulation (EU) 10/2011 , FDA regulation 21 CFR 177:1630 , Halal guidelines and Restriction Of Hazardous Substances (RoHS).

### Disclaimer and Notes for information purpose:

- The above declaration is given on basis of our internal / external assessment and confirmations received from the raw material suppliers.
- Since the BOPET films are being converted to laminates and subject to printing and lamination using different adhesives, printing inks, overprint varnishes and other substrate, this is the responsibility of converter / user of the BOPET films to determine and satisfy about the presence of any harmful / toxin /banned compound in converted BOPET films. This declaration may become invalid when our product is not properly processed or when it is altered by thermal or other degradation processes.
