

TECHNICAL DATA SHEET

GENERAL

Product Name : PM 20904 E
Color : RED
Application : INJECTION
UV Stabilizer : -
Recommended Doses : 2.0%

CHEMICAL AND PHYSICAL PROPERTIES

Pigment Type : RED
Base Resin : PE
Pellet Size : 50 - 100 pcs/gr
Bulk Density : 0.80 - 1.50 g/cm³
Melt Flow Rate : 20 ± 10 g/10min
Process Temp. : 200°C - 230°C
Light Fastness : 7
Food Contact Approval : YES
Migration : 4
Resin Suitability : POLYETHYLENE

Data or recommendations are based on the extensive laboratory testing and / or application experience and trust to be a reliable indication of the expected results. However the data does not constitute as a guarantee, and is offered only as a guide to performance. Therefore, final approval and acceptance must be evaluated by the buyer.
