## 1. PRODUCT AND COMPANY IDENTIFICATION

SDS Code PE-002

Trade Name Titanvene™ LINEAR LOW DENSITY POLYETHYLENE

Grade Name LL0220AA

Manufacturer/Supplier PT. Lotte Chemical Titan Nusantara

Address Head Office : Merak Works :

Setiabudi 2 Building 3rd floor,
Suite 306-307
Jl. Raya Merak Km.116
Rawa Arum, Pulo Merak
Jl. HR. Rasuna Said Kav.62, Kuningan
Cilegon 42436,

Banten, INDONESIA

Jl. HR. Rasuna Said Kav.62, Kuningan Jakarta, 12920 Indonesia.

Jakarta, 12920 muonesia.

 Telephone Number
 +62 21 52907008
 +62 254 571333

 Facsimile Number
 +62 21 52907281
 +62 254 572468

Emergency Telephone Number +62 254 571333 ext.2222

#### 2. HAZARD IDENTIFICATION

Health Effects - Ingestion

Main Hazard Not classified as hazardous

**Health Effects – Eyes** Fine dust may cause irritation to the outer surface of the eye.

Fumes from the heated material may cause lacrimation and severe irritation.

Contact with hot material may cause thermal burns.

Health Effects - Skin Material not normally an irritant, however, repeated or prolonged contact may cause

some irritation.

Fumes from the heated material may be severely irritating and corrosive. Contact with hot material may cause thermal burns.

Inert material regarded as harmless by ingestion

(Ingestion is not considered a normal route of exposure).

**Health Effects – Inhalation** Dust may cause respiratory tract irritation. See sections 7 and 8.

If heated to more than 300°C, the product may form vapors or fumes, which could cause

irritation of the respiratory tract, coughing and shortness of breath.

#### 3. COMPOSITION / INFORMATION ON THE COMPONENTS

Product Trivial Name Linear Low Density Polyethylene (LLDPE)

Product Formal Name Ethene-butene-1 copolymer

Product Chemical Family Polyolefin

Component	CAS Number	Amount
Ethene-butene-1 copolymer	25087-34-7	< 100% Weight
Additive	Various	< 3% Weight

**REACH Registration Number** Ethylene : 01-2119462827-27-0136

PT. Lotte Chemical Titan Nusantara. (Formerly known as PT TITAN Petrokimia Nusantara) Head Office: Setiabudi 2 Building Lt 3, Suite 306-307 JI HR Rasuna Said Kav 62, Jakarta - 12920, Indonesia Phone: +62 21 52907008 Fax: +62 21 52907281

Site Location : Jl. Raya Merak Km.116 Cilegon 42436, Banten Indonesia Phone +62 254 572 468 Fax : +62 254 571290

Email: tsc@lottechem.co.id Website: www.lottechem.co.id

Phone +62 254 572 468 Fax: +62 254 571290

#### 4. FIRST AID MEASURES

First - Aid - Ingestion

Immediately flood the eyes with plenty of water for at least 15 minutes, holding the eye First Aid - Eyes

open. Obtain medical attention if soreness or redness persists.

First Aid - Skin Wash skin thoroughly with soap and water, obtain medical attention if irritation persists.

If burned by contact with hot material, flush skin immediately with large amounts of cold

water. If possible, submerge area in cold water.

No attempt should be made to detach polymer adhering to the skin or to remove clothing attach with molten material. Thermal burns require immediate medical attention.

In case of ingestion of large quantities, get medical attention.

First - Aid - Inhalation If affected by fumes from heated material, remove from source of exposure and move

the affected person into fresh air. Obtain medical attention if the symptoms continue.

#### 5. FIRE FIGHTING MEASURES

Use water spray, foam, carbon dioxide (use for live electrical installation), or dry **Extinguishing Media** 

chemical (post hazard concern).

**Unsuitable Extinguishing Media** Do not use direct water jets in the early stages of extinguishing a fire as this may help to

spread the flames.

Do not use water extinguishers in close proximity to live electrical installations. **Special Hazards of Products** 

Hazardous combustion products may include carbon monoxide, small quantities of

aldehydes, and may also produce molten polymer and black smoke. See Section 8. Wear full protective clothing and self-contained breathing apparatus.

**Protective Equipment for Fire** 

**Fighting** 

#### 6. ACCIDENTAL RELEASE MEASURES

Personal Precautions Granules spilled on the floor can cause slipping. Avoid creating a dust cloud.

If the material has been released into a stream or a public sewer or other drainage **Environmental Precautions** 

system inform the appropriate authorities.

**Spillage** Transfer into suitable containers for recovery or disposal.

### 7. HANDLING AND STORAGE

#### Handling Safety glasses are recommended for handling pellets and also thermally resistant gloves for processing hot materials.

Avoid contact with heated or other molten products. Thermal burns are the most common injury caused while processing molten LLDPE. There is a risk of being splashed with molten materials, for example when purging or starting up an extruder or injection molding machine.

Do not inhale fumes or vapor from molten product. Use local exhaust ventilation over processing area. LLDPE materials, especially in powder form, can give rise to dust during handling.

LLDPE dust is a nuisance dust (see Section 8) and is classified as flammable. As a consequence, generation and accumulation of dust, for instance in cutting or granulating area, must be avoided.

Pneumatic conveying of powder and pellets can generate large static electrical charges. Electrical discharge in presence of air can cause an explosion. Earth all equipment.

Store LLDPE materials on safe storage design.

Store at ambient temperature in a dry and ventilated area. Do not store near highly

flammable material, and store away from sources of heat. Keep away from direct sunlight (see also Section 8).

The main hazards are related to pallet stock slippage and forklift truck maneuvers, which can cause injury to personnel. It is recommended that adequate procedures covering storage and handling of pallets are established and maintained. These procedures must be kept up to date and regularly audited.

Pellet spills should be swept up immediately to prevent slipping.

## Storage

PT. Lotte Chemical Titan Nusantara. (Formerly known as PT TITAN Petrokimia Nusantara) Head Office: Setiabudi 2 Building Lt 3, Suite 306-307 JI HR Rasuna Said Kav 62, Jakarta - 12920, Indonesia Phone: +62 21 52907008 Fax: +62 21 52907281

Site Location : Jl. Raya Merak Km.116 Cilegon 42436, Banten Indonesia Phone +62 254 572 468 Fax : +62 254 571290

Email: tsc@lottechem.co.id Website: www.lottechem.co.id

#### 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Always consult the officially published Exposure Standard list when applying **Occupational Exposure Standards** 

occupational exposure standards.

10mg/m<sup>3</sup> (ACGIH) Nuisance dust TLV:

Limits for the hazardous decomposition products (see Section 10) : UK EH40: OES 35ma/m<sup>3</sup> 8h TWA Carbon monoxide Carbon dioxide UK EH40: OES 9150mg/m3 8h TWA UK EH40 : OES 0.23mg/m³ 8h TWA
UK EH40 : OES 0.70mg/m³ 15 min TWA
UK EH40 : MEL 2.5mg/m³ 8h TWA. A2 Carcinogen Acrolein

Formaldehyde

Phone +1 513 7422020, Fax +1 513 7423355

**Engineering Control Measures Respiratory Protection** 

Use only in well-ventilated area, minimum 6 air changes per hour.

Product processing, heat sealing of LLDPE film, or operations involving the use of wires or blades heated above 300°C may produce dust, vapor or fumes. To minimize risk of overexposure to dust, vapor or fumes, it is recommended that a local exhaust system is

placed above the equipment, and that the working area is properly ventilated.

Direct contact with LLDPE materials does not normally lead to skin irritation. However, Hand Protection

unnecessary contact with the material should be avoided. Employees with a history of skin disease or allergy should receive medical clearance prior to employment involving

direct contact with the material.

**Eye Protection** If there is risk of exposure to dust or splashing material, safety glasses should be worn.

**Body Protection** Standard work clothes and safety shoes.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

**Physical State** Normally delivered as granules

White or translucent Color

Melting Point (°C) Melts between 122°C and 130°C

Flash Point (PMCC) (°C) Above 300°C decomposition occurs and flash or fumes may occur

Solubility in Water (kg/m³) Insoluble

Density (kg/m³) 915 - 930 (ISO 1183)

Auto-flammability (°C) 350°C

**Dust Explosion Data** Minimum ignition temperature 400°C

Softening Point (°C) 95°C - 120°C (VICAT)

Solubility in Other Solvent Aromatics at elevated temperatures

## 10. STABILITY AND REACTIVITY

Stability Stable, although heating above 300°C in air may produce carbon monoxide,

hydrocarbon, aldehydes such as acrolein and formaldehyde and organic acids.

Processing equipment should be provided with local exhaust ventilation.

## 11. TOXICOLOGICAL INFORMATION

**Acute Toxicity** No evidence of acute toxicity reported. **Skin Sensitization** No known reports of skin sensitization.

Sub-acute/Sub-chronic Toxicity No reports of adverse long-term effects following repeated exposures.

PT. Lotte Chemical Titan Nusantara. (Formerly known as PT TITAN Petrokimia Nusantara) Head Office: Setiabudi 2 Building Lt 3, Suite 306-307 JI HR Rasuna Said Kav 62, Jakarta - 12920, Indonesia Phone: +62 21 52907008 Fax: +62 21 52907281

#### 12. ECOLOGICAL INFORMATION

If released to water the product will float. Mobility Persistence/Degradability The material is not biodegradable. **Bio-accumulation** Product is not expected to bioaccumulate.

The material is not toxic. **Ecotoxicity** 

### 13. DISPOSAL

**Product Disposal** Recover or recycle if possible.

Otherwise, incinerate in appropriate incinerators with energy recovery, or dispose of in

landfills in accordance with local regulations.

Empty containers should be recovered for reuse or recycling or disposed of in landfills **Container Disposal** 

in accordance with local regulations.

#### 14. TRANSPORT INFORMATION

**UN - Class** Not classified ADR/RID - Class Not classified IMDG - Class Not classified IATA - Class Not classified

## 15. REGULATORY INFORMATION

**Labeling Information** 

R Phrases Not applicable **S Phrases** Not applicable

**EINECS Listing** Polymer, exempt from listing

**EC Annex I Number** Not listed

**EC Annex I Classification** Not classified according to EC Directives 67/548/EC and 1999/45/EC

**TSCA Listing** Yes **AICS/NICNAS Listing** Yes DSL/NDSL (Canadian) Listing DSL listed

## **16. OTHER INFORMATION**

**MSDS Data Revision April 2018 Next Evaluation** April 2021

**MSDS Distribution** The information in this document shall be made available to all who may handle

Titanvene<sup>™</sup> LINEAR LOW DENSITY POLYETHYLENE products

Notice This material Safety Data Sheet is based upon data considered to be accurate as at the

time of its preparation. Despite our efforts, it may not be up to date or applicable to the circumstances of any particular case. We are not responsible for any damage or injury resulting from abnormal use, from any failure to follow appropriate practices or from

hazards inherent in the nature of the product.
